BEHR HELLA SERVICE

The Thermal Management Expert for passenger cars and trucks

With over 6.000 quality articles in over 20 product groups, Behr Hella Service offers unequalled market coverage. Our customers profit from the know-how of Behr and HELLA, and the high degree of service competence in supplying parts and providing technical information, training for both the independent aftermarket and independent garages, and also benefit from the sales promotion offered. For you, this means an ideal combination of products and competence: HELLA's global sales organization plus Behr's OE product know-how, as well as the linking of activities in the field of vehicle air conditioning and engine cooling.

In the third quarter 2014 Behr Hella Service has launched 144 new products.

HIGHLIGHTS

- **22 products produced by Behr**, among others: radiators and intercooler for **BMW 1/3 (F20/F30)** and an intercooler for **FORD MONDEO IV / GALAXY**
- **39 Alternative* products**: 31 radiators, 8 compressors
- **9 products produced by Visteon** for different **Volvo and Ford applications**.
- **2 radiators** for **Iveco Daily**

* In the meantime Behr Hella Service offers about 400 alternative products parallel to the corresponding Behr Hella Service original parts in the radiator, compressor and condenser range. These are ideally suited for cost-effective servicing of older vehicles.

NEW PRODUCTS

Part number	Description	Car application	OE number*	Type of vehicle	Version
8EW 351 104-051	Interior Blower	JOHN DEERE COMBINES	AZ43302	Off-Highway	Produced by BEHR

Range of products in the new 2015/16 air-conditioning catalog from Behr Hella Service expanded once again

Controls adopted as a new product group

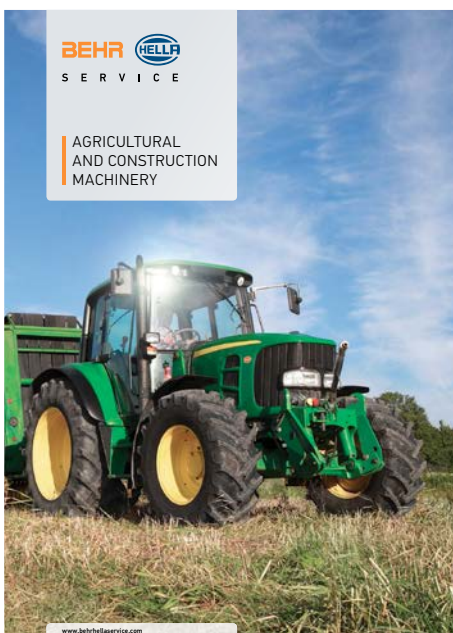

The new catalog „A/C equipment Passenger cars and light trucks 2015/16“ from thermal management expert Behr Hella Service is available since March 2015, having been expanded once again and now including the product group of controls for blending flaps. The catalog with more than 1,100 pages, which covers vehicle-specific spare parts and universal parts for vehicle air conditioning for cars and vans as well as air conditioning compressor oils, has been expanded with over 10 additional vehicle makes and around 200 vehicle models. It contains a total of over 2,700 items for 68 different vehicle makes and almost 1,900 vehicle models, including all bodywork designs.

The new air conditioning catalog also presents over 190 alternative products, which are offered alongside the corresponding Behr Hella Service original part in the area of air conditioning compressors and condensers. These are particularly suitable for repairs to older vehicles that reflect their current value. The catalog features a very clear layout: all newly added parts are set out at the beginning, with all discontinuations at the end. In addition, specially created symbols help make the product characteristics easy to understand. It is always stated whether the condenser, evaporator or interior blower is fitted with a filter dryer, expansion valve or blower controller.

The new catalog will be available from trade partners or directly from HELLA.

Thermal management products from Behr Hella Service are now also available for agricultural and construction machinery

We have expanded our portfolio to include vehicle-specific parts and universal products for engine cooling and vehicle air conditioning

Thermal management expert Behr Hella Service now also provides engine cooling and vehicle air conditioning products for users of agricultural and construction machinery. Their portfolio includes both vehicle-specific parts and universal products, plus a wide range of compressor oils for the most diverse requirements. Both the independent aftermarket and specialized agricultural and construction traders can now make use of a wide and steadily expanding range of applications. Like existing customers in the target groups passenger cars, vans and trucks, traders of agricultural and construction machinery can now also benefit from the expertise of a thermal management expert, its extremely competent parts supply service and the readily available technical information, training courses and comprehensive sales support.

You will find more information about our expanded portfolio in the new brochure "Agricultural and construction machinery" at www.behrhellaservice.com.
